DEVELOPMENT

淮安“丰”字型战略叠加示意图

Strategic Overlap Diagram of Huai'an

淮安是长三角经济区和环渤海经济圈交汇节点城市，长三角一体化战略、淮安首提首推的淮河生态经济带和“一带一路”、大运河文化带建设等国家重大战略，呈“丰”字型在淮安汇聚，助力淮安加快建设长三角北部现代化中心城市、大运河文化带标志城市、淮河生态经济带引领城市、江淮生态经济区核心城市。

Huai'an is a nodal city where the Yangtze River Delta Economic Circle and the Bohai - Rim Economic Circle meet. Major national strategies such as the Yangtze River Delta Integration Strategy, the Huaihe River Ecological Economic Belt (first proposed and promoted by Huai'an), the Belt and Road Initiative, and the construction of the Grand Canal Cultural Belt converge in Huai'an in a "丰" - shaped pattern. These strategies help Huai'an accelerate its development into a modern central city in the northern Yangtze River Delta, a landmark city on the Grand Canal Cultural Belt, a leading city in the Huaihe River Ecological Economic Belt, and a core city in the Jianghuai Ecological Economic Zone.

城市名片

淮安 位于长三角北翼和江苏省北部中心，地处中国南北地理分界线、南北气候过渡带、南北文化融合区，总面积**1.03**万平方公里、总人口**551**万，辖清江浦、淮安、淮阴、洪泽4区，涟水、盱眙、金湖3县，以及淮安经济技术开发区、工业园区、生态文旅区，历史底蕴深厚，充满发展活力。

Huai'an is located in the northern wing of the Yangtze River Delta and the central part of northern Jiangsu Province. It is situated on the geographical dividing line between the north and the south of China, the transitional zone of the north and south climate, and the integration area of the north and south cultures. With a total area of 10,300 square kilometers and a population of 5.51 million, it governs four districts, namely Qingjiangpu, Huai'an, Huaiyin and Hongze, three counties, namely Lianshui, Xuyi and Jinhu, as well as Huai'an Economic and Technological Development Zone, Industrial Park and Ecological and Cultural Tourism Zone. It has a profound historical background and is full of development

伟人故里

Hometown of a Great Figure

淮安是一代伟人周恩来总理的家乡，周恩来故居、纪念馆、童年读书处诉说着“为中华之崛起而读书”“愿相会于中华腾飞世界时”的故事。

Zhou Enlai, the first premier of the People's Republic of China, was born in Huai'an. His former resident, the memorial hall and his childhood study place are all well-kept, telling us the stories of “to study for the rise of China” and “may we meet when China is soaring in the world”.

运河之都

Metropolis along the Grand Canal

淮安素有“南船北马，九省通衢”之称，绵延千里的京杭大运河博大精深、源远流长，孕育了淮安运河之都的人文底色。明清两代为漕运枢纽、盐运要冲，“天下九督，淮安其二”，是运河沿线的四大都市之一。

Huai'an serves as the geographical division of north and south China as it used to be the headquarters of nationwide canal transportation command, river treatment, ship manufacturing, tribute grain warehousing, and salt distribution in the Ming and Qing dynasties (1368—1840). It was one of the four metropolises along the Grand Canal.

美食之都

City of Gastronomy

淮安是中国四大传统菜系淮扬菜的主要发源地和传承地，淮扬菜具有“东南第一佳味，天下之至美”的雅称，已成为国宴基准菜系。2021年，淮安获评联合国教科文组织创意城市网络美食之都。

Huai'an is an important place of origin and inheritance of Huaiyang cuisine, one of the four traditional cuisines in China. In November 2021, Huai'an was officially designated as the City of Gastronomy of UNESCO Creative Cities Network.

文化名城

Famous Cultural City

淮安秦时置县，至今已有2200多年建城史，诞生过千古名将韩信、汉赋大家枚乘、枚皋、《西游记》作者吴承恩等众多名人。

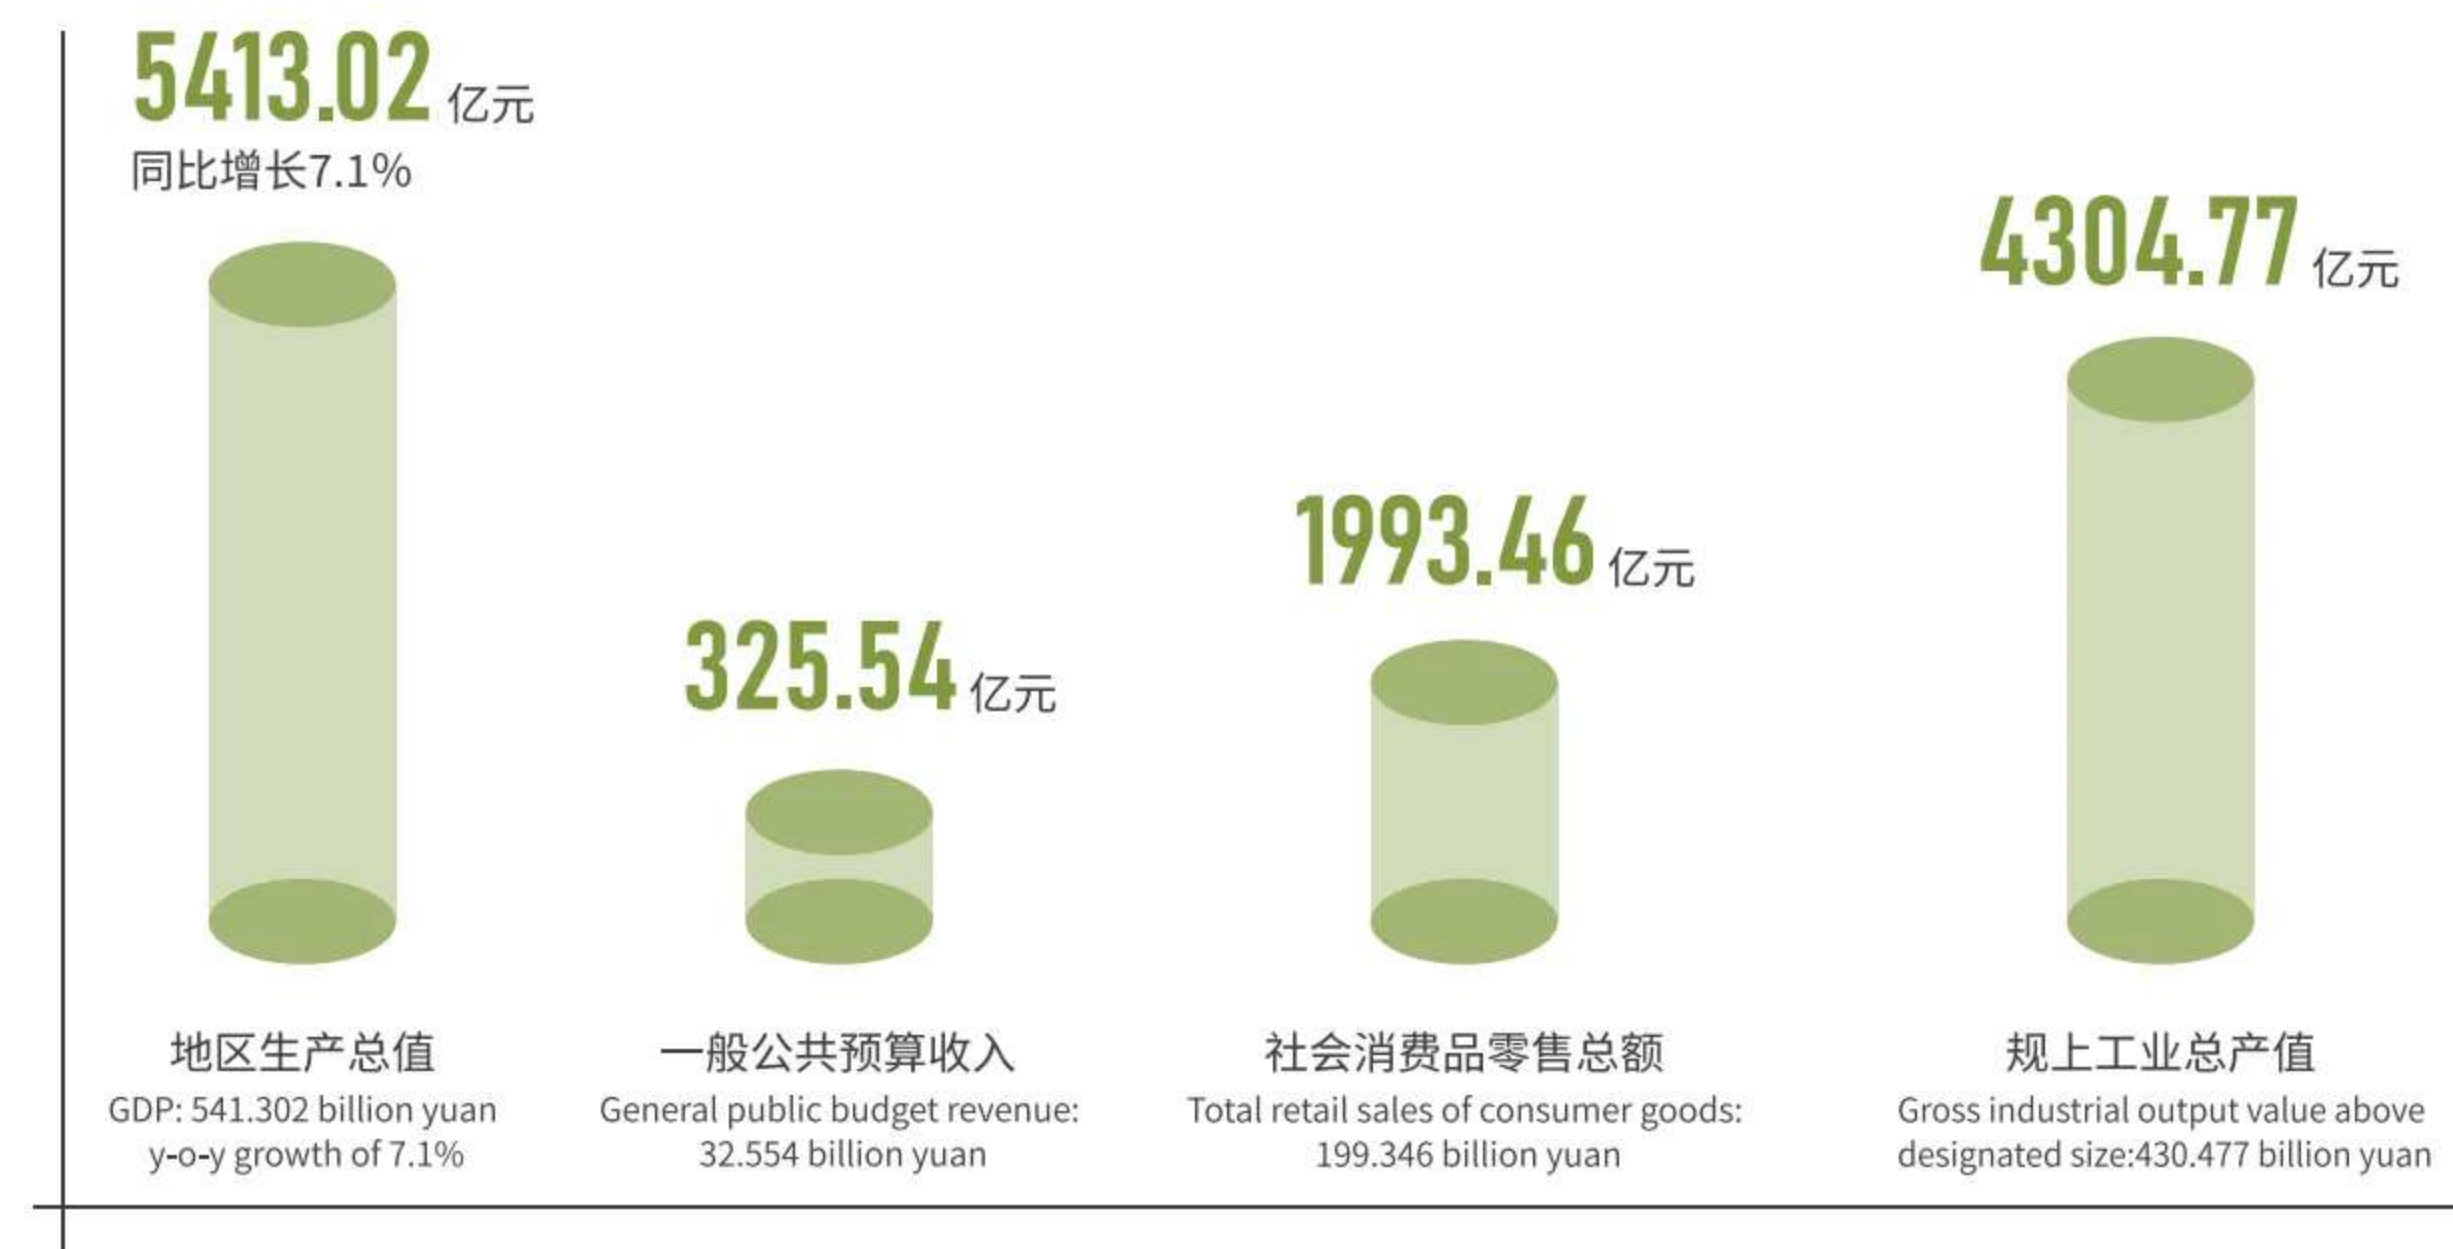

The history of Huai'an can be traced back to the Qin dynasty (221-207 BC), over 2,200 years ago. Han Xin, the brilliant military leader, Mei Cheng and Mei Gao, the great poets in the Han dynasty (202 BC-220 AD), and Wu Cheng'en, the author of The Journey to the West were born in Huai'an city.

HIGH-SPEED RAILWAY 高铁

长三角北部重要的铁路枢纽
An Important Railway Hub in North Yangtze River Delta

加快构建米字型高铁网络。现有连淮扬镇、徐宿淮盐2条高铁在淮交汇，正在全面建设宁淮城际铁路，2027年建成后将有60多对班次途径宁淮两地；正加快实施京沪高铁第二通道的沂淮铁路，建成后淮安将成为国家高铁主通道的重要节点城市。正在推进全省首个高铁快运物流基地，将成为辐射苏北、联通全国的高铁快运分拨中心。

Currently, two high-speed railways, namely the Lianyungang-Huai'an-Yangzhou-Zhenjiang High-Speed Railway and the Xuzhou-Suqian-Huai'an-Yancheng High-Speed Railway, converge in Huai'an. The Nanjing-Huai'an Intercity Railway is now under full-scale construction. After its completion in 2027, more than 60 pairs of trains will pass through Nanjing and Huai'an. The Yishui-Huai'an Railway of the Second Beijing-Shanghai High-Speed Railway Passage is being implemented at an accelerated pace. Upon its completion, Huai'an will become an important node city on the national high-speed rail main passage. The province's first high-speed rail express logistics base is being promoted, which will become a high-speed rail express distribution center radiating northern Jiangsu and connecting with the whole country.

京沪高速、淮徐高速、淮盐高速、长深高速、新扬高速、金湖支线6条高速公路在淮安交汇，高速公路里程达到402公里，县域全部通高速，构建了高速、高架、有轨电车高效衔接的快速通行圈。

6 expressways, namely the Beijing - Shanghai Expressway, Huai'an - Xuzhou Expressway, Huai'an - Yancheng Expressway, Changchun - Shenzhen Expressway, Xinchang - Yangzhou Expressway and Jinhu Branch Line, converge in Huai'an. The total length of expressways in Huai'an reaches 402 kilometers, ensuring that every county in the city has access to expressways. This has enabled the establishment of an efficient transportation circle with seamless connections among expressways, elevated roads and trams.

PIPELINE 管道

淮安是西气东输、北电南送的区域节点城市，境内有中俄东线等9条石油天然气长输管道，占全省1/7。

拥有1350亿立方米盐穴、盐腔可供储能、储气、储油，在建的3个储气库项目均被纳入国家石油天然气“十四五”发展规划。

Huai'an is a regional node city for west-to-east gas transmission and north-south power transmission, with 9 long-distance oil and gas pipelines in its area, accounting for 1/7 of the province.

135 billion m³ of salt caverns and cavities can be used for energy storage, gas storage and oil storage. 3 gas storage projects under construction have been included in the national oil and gas "14th Five-Year Plan".

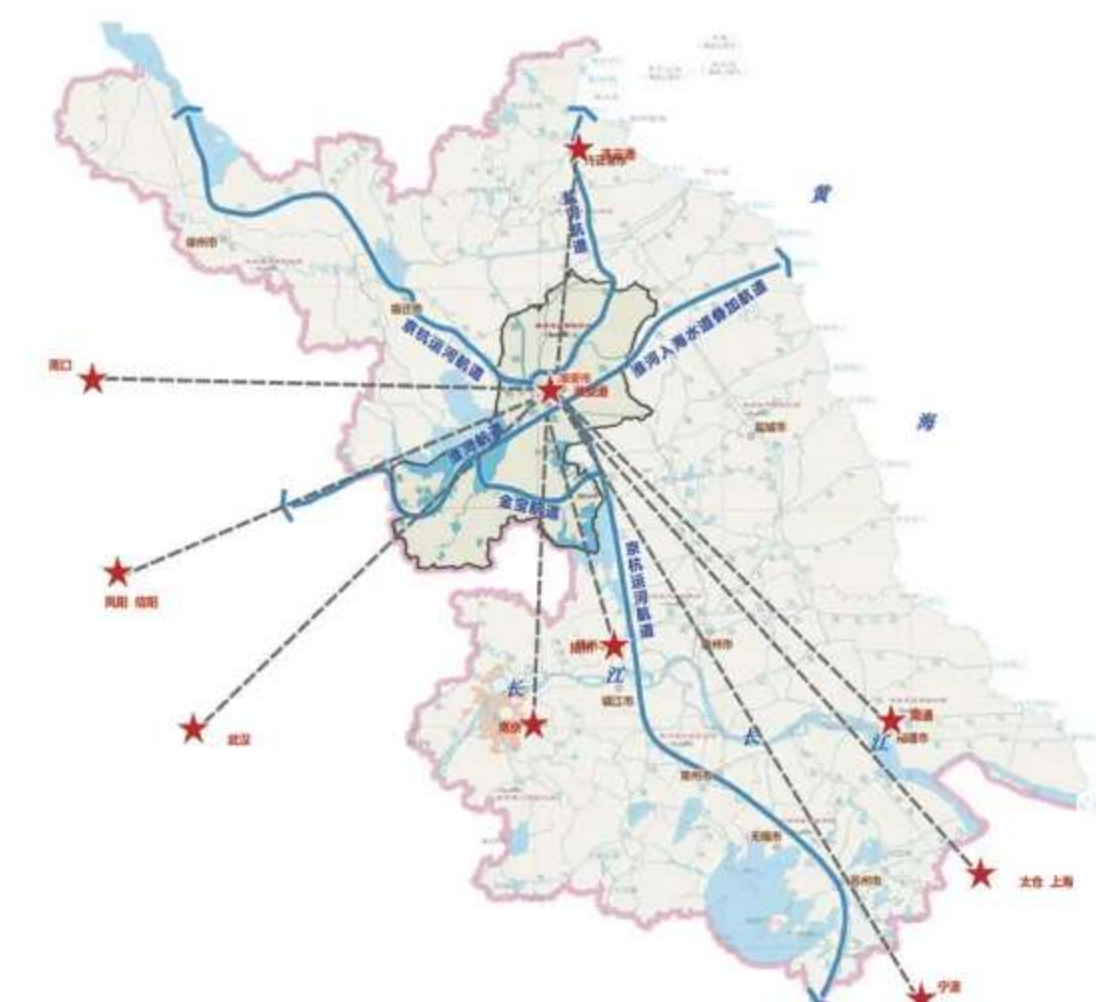

WATER TRANSPORTATION 水路

全国性内河航运中心
National Center for Inland Waterway Shipping

依托大运河、淮河、盐河等通道，水运网络通江达海。全市现有港区7个，可直达上海、太仓、连云港等港口，开通“铁海联运”“河海联运”等多式联运线路24条。淮安港至上海港水路外贸集装箱航线班期密度从每周3班提升至每周10班运营；淮安港至上海港、宁波港2条外贸海铁联运线路实现天天班运营。正在加快实施淮河入海水道二期叠加二级航道、淮安港三期等重大工程。

Relying on transportation routes such as the Grand Canal, the Huai River, and the Yan River, the water transportation network connects to the Yangtze River and reaches the sea. At present, there are 7 port areas in the whole city, which can directly reach ports such as Shanghai Port, Taicang Port, and Lianyungang Port. A total of 24 multimodal transportation routes, including "rail-sea intermodal transport" and "river-sea intermodal transport", have been opened. The frequency density of the waterway foreign trade container shipping route between Huai'an Port and Shanghai Port has been increased from 3 trips per week to 10 trips per week. The two foreign trade rail-sea intermodal transport routes between Huai'an Port and Shanghai Port, as well as between Huai'an Port and Ningbo Port, have achieved daily operation. Major projects such as the second phase of the Huai River to the Sea Outfall Channel with the superimposition of a Class-II waterway and the third phase of Huai'an Port are being accelerated for implementation.

2024年，淮安港成为全球头部物流企业马士基航运首个开通CCA业务的内河港口，淮安及周边外贸企业的货物可以通过马士基的全球航线“通江达海”至世界各地，实现淮安港与国内外一线港口的无缝对接。

In 2024, Maersk established its first CCA business in Huai'an, the first inner port ever. Goods from Huai'an and neighboring cities can reach every corner of the globe via Maersk's routes worldwide, enabling Huai'an connecting seamlessly to the top ports home and abroad.

淮安港危化品码头通港达园航道开港通航，建成后给淮安工业园区内企业原材料和产成品运输提供有力保障。

The channel connecting the hazardous chemicals terminal of Huai'an Port to the port and the industrial park has been opened for navigation. After its completion, it will provide strong support for the transportation of raw materials and finished products of enterprises in Huai'an Industrial Park.

产业基础

INDUSTRIAL BASIS

淮南市围绕“工业强市”目标，聚焦新质生产力发展方向强龙头、补链条、聚集群，着力构建以“7+3”先进制造业集群、“353”战略性新兴产业融合集群为主导的现代化产业体系，全力打造长三角先进制造业融合发展集聚区，长三角北部战略性新兴产业融合集群发展示范区。

Centering around the goal of "boosting the city through industry", Huai'an City focuses on the development direction of new - type productive forces. It strengthens leading enterprises, shores up industrial chains and fosters industrial clusters. The city is committed to building a modern industrial system dominated by the "7+3" advanced manufacturing clusters and the "353" integrated strategic emerging industry clusters. Huai'an is sparing no effort to develop itself into an advanced manufacturing integration and development cluster in the Yangtze River Delta and a demonstration zone for the integrated cluster development of strategic emerging industries in the northern Yangtze River Delta.

► 新一代信息技术产业 New - generation Information Technology Industry

以鹏鼎控股、达方电子、荣芯半导体、澳洋顺昌、华晨光电显示等为代表的新一代信息技术产业集群优势明显,淮安将成为全国最大的PCB生产基地,全国最大的LED外延片及芯片生产基地,正加快打造长三角知名印刷电路板产业集聚区、全国知名的先进封测产业基地。

The new - generation information technology industry clusters, represented by Avary Technology, Darfon Electronics, Rongxin Semiconductor, Aucksun, Huachen Optoelectronic Display, and Wensheng Electronics (the leading enterprise in the inductor industry), have distinct advantages. Huai'an will become the largest PCB production base in China, as well as the largest LED epitaxial wafer and chip production base in China. It is accelerating the construction of a well - known printed circuit board industry cluster in the Yangtze River Delta and a renowned advanced semiconductor packaging and testing industry base in China.

► 新能源产业 New Energy Industry

以天合光能、捷泰、阿特斯、南高齿等为代表的新能源产业集群全面发力,形成光伏、风电、新型储能等一体化发展格局,光伏产业集群跻身国家先进制造业集群行列。“十四五”期间,我市将成为全省光伏电池集聚发展的重要生产基地。

The new energy industry clusters represented by Trina Solar, Jietai Solar, Canadian Solar, NGC and others are making all-round efforts. An integrated development pattern of photovoltaic, wind power, new energy storage, etc., has taken shape, and the photovoltaic industry cluster has joined the ranks of national advanced manufacturing industry clusters. During the 14th Five - Year Plan period, our city will become an important production base for the concentrated development of photovoltaic cells in the province.

► 汽车及零部件产业 Automobile and Auto Parts Industry

以比亚迪、韩泰轮胎、理士电池、双环齿轮、库比森轮胎(百亿, 汽车轮胎项目)、合源锂创(固态电池)等为代表的汽车及零部件产业集群加速集聚, 依托现有产业基础, 大力发展汽车整车及改装车, 积极招引核心零部件配套企业, 打造全国最大新能源商用车生产基地。

Automotive and auto - parts industry clusters, represented by BYD, Hankook Tire, Leoch Battery, Shuanghuan Gear, Kubison Tire (a multi - billion - yuan automotive tire project), and HYLICreate (solid - state battery), are accelerating their agglomeration. Relying on the existing industrial foundation, efforts are being made to vigorously develop complete vehicles and modified vehicles, actively attract core auto - parts supporting enterprises, and build the largest new - energy commercial vehicle production base in China.

全力打造五个五百亿级产业集群

VIGOROUSLY BUILD FIVE INDUSTRIAL CLUSTERS

► 化工新材料产业 Chemical Engineering New Material Industry

化工新材料产业资源充沛, 淮安地下岩盐资源储量丰富, 拥有全省唯一依托地方资源优势打造建设的特色化工新材料产业园区。

The chemical new materials industry is rich in resources. Huai'an has abundant underground rock salt reserves and owns the only characteristic chemical new materials industrial park in the province, which is built relying on local resource advantages.

► 金属及无机非金属材料产业 Metal and Inorganic Non - metallic Materials Industry

金属及无机非金属材料产业蓬勃发展, 高性能人工合成、天然矿物质功能材料、高纯石英制品等产品正加速发展, 推动玻纤、石英砂等产品加快向下游延伸产业链条。

The metal and inorganic non - metallic materials industry is booming. Products such as high - performance synthetic materials, natural mineral functional materials, and high - purity quartz products are developing at an accelerated pace. This is driving the extension of the industrial chains of products like glass fiber and quartz sand towards the downstream.

纤维新材料产业 Fiber New Materials Industry

淮安在发展再生纤维、功能性纤维、高性能纤维为主的纤维新材料产业的同时,推进高端纺织、功能面料、品牌服装等产业协同发展,致力将淮安打造成为全省纤维新材料创新型产业集群基地。

While developing the fiber new materials industry mainly focusing on recycled fibers, functional fibers and high - performance fibers, Huai'an promotes the coordinated development of industries such as high-end textiles, functional fabrics and branded clothing. It is committed to building Huai'an into an innovative industrial cluster base for fiber new materials in the province.

Huai'an will vigorously promote the development and industrialization of high-end generic drugs and innovative drugs, and coordinate the development of products such as medical devices, biomedical consumables, medical imaging equipment and treatment equipment. It will also actively develop medical foods and functional foods.

智能制造装备产业 Intelligent Manufacturing Equipment Industry

智能制造装备产业基础扎实,装备制造业是我市传统优势产业之一,拥有近80年的发展历史,近年来沿着高端化、智能化、绿色化发展方向,加速转型升级、蝶变发展。

The intelligent manufacturing equipment industry has a solid foundation. The equipment manufacturing industry, with a development history of nearly 80 years, is one of the traditional advantageous industries in our city. In recent years, following the development directions of high - end, intelligent, and green manufacturing, it has been accelerating its transformation, upgrading, and remarkable development.

培育三个百亿级产业集群

CULTIVATE THREE INDUSTRIAL CLUSTERS EACH WORTH OVER 10 BILLION YUAN

软件和信息服务业 Software and Information Service Industry

淮安市扎实推进全国一体化算力网络长三角国家枢纽节点、宁淮绿色数字经济算力中心建设,加快发展以基础软件、工业软件、行业应用软件为重点的嵌入式软件,前瞻布局5G等为重点的前沿领域平台软件,聚焦工业互联网、车路协同智能网联等领域,加快构建完善的物联网产业体系。

宁淮算力中心

Huai'an is solidly promoting the construction of the Yangtze River Delta National Hub Node of the National Integrated Computing Power Network and the Nanjing-Huai'an Green Digital Economy Computing Power Center. It is accelerating the development of embedded software with a focus on basic software, industrial software, and industry application software, and is forward-looking in laying out platform software in cutting-edge fields with a focus on 5G and other technologies. Focusing on areas such as industrial internet and vehicle-road collaborative intelligent networking, Huai'an is accelerating the construction of a sound Internet of Things industrial system.

人工智能产业 Artificial Intelligence Industry

我市集聚了一批农业机器人、安防机器人、仓储机器人重点项目,加快突破通用计算框架、通用智能芯片、类脑智能算法等前沿产业项目,大力发展智能服务机器人、智能无人机、无人驾驶等智能终端产品。

Our city has gathered a number of key projects in agricultural robots, security robots, and warehouse robots. It is accelerating breakthroughs in cutting - edge industrial projects such as general - purpose computing frameworks, general - purpose intelligent chips, and brain - inspired intelligent algorithms. Vigorously, it is developing intelligent terminal products like intelligent service robots, intelligent drones, and driverless vehicles.

绿色环保产业 Green Environmental Protection Industry

淮安构建资源循环综合利用产业体系,推进园区绿色低碳循环发展,利用本地丰富的岩盐、盐矿等资源,加快储能产业发展,推动废旧光伏组件、风力发电机组叶片、动力电池等新型固废综合利用。

Huai'an is building an industrial system for comprehensive resource recycling, promoting the green, low - carbon and circular development of industrial parks. By leveraging its rich local resources such as rock salt and salt mines, the city is accelerating the development of the energy storage industry. Meanwhile, it is also promoting the comprehensive utilization of new types of solid waste like waste photovoltaic modules, wind turbine blades and power batteries.

淮安市电镀中心 Huai'an Electroplating Center

可实现476万平方米/年金属及塑料零部件表面处理能力。

It can achieve an annual surface treatment capacity of 4.76 million square meters for metal and plastic parts.

淮安市模具加工中心 Huai'an Mold Processing Center

已成年加工模具模架2.6万套及汽车零部件300万件的生产能力。

It has formed an annual production capacity of 26,000 sets of mold bases and 3 million pieces of auto parts.

淮安市铸造中心 Huai'an Foundry Center

已具备8万吨/年的铸造能力,主要生产水泵、齿轮、汽车零部件、集装箱配件等产品。

It has an annual casting capacity of 80,000 tons and mainly produces products such as water pumps, gears, auto parts, and container accessories.

淮安市铸锻中心 Huai'an Casting and Forging Center

具备年产铸锻件72万吨,产品广泛用于石油钻采、轨道交通、风电、化工、冶金等多行业领域。

It has an annual production capacity of 720,000 tons of castings and forgings. The products are widely used in various industries such as oil drilling and production, rail transit, wind power, chemical engineering, and metallurgy.

淮安市热处理中心 Huai'an Heat Treatment Center

具备年处理7.85万吨各种机械配件及柴油机发动机核心零部件800万套的生产能力,产品主要用于石油装备、工程机械等行业领域。

It has the production capacity to process 78,500 tons of various mechanical parts and 8 million sets of core components of diesel engines annually. The products are mainly used in industries such as petroleum equipment and construction machinery.

淮安市精加工中心 Huai'an Precision Machining Center

现有能够提供公共配套的骨干精加工企业8户,拥有高精度数控加工中心、滚齿磨齿机等生产设备和检测设备。

There are currently 8 backbone precision processing enterprises that can provide public supporting facilities, equipped with high-precision CNC machining centers, gear hobbing and grinding machines, and other production and testing equipment.

国土空间 TERRITORIAL SPACE

新编制25个500亩以上集中连片工业用地储备方案,实现“地等项目”。在新一轮国土空间规划中,新增城镇建设空间156.7平方公里,到2035年城市发展和重大项目落地可实现应保尽保。

近年来组织实施500亩以上土地连片开发项目20余个,有力保障“地等项目”。

Newly formulate a reserve plan for 25 contiguous industrial land plots, each with an area of 500 mu or more, to achieve the goal of "land waiting for projects". In the new round of land and space planning, an additional 156.7 square kilometers of urban construction land will be available. By 2035, the land needed for urban development and the implementation of major projects can be fully guaranteed.

In recent years, more than 20 contiguous land development projects of over 500 mu each have been organized and implemented, effectively ensuring that "land is available for projects".

人力资源 HUMAN RESOURCES

淮安现有淮阴师范学院、淮阴工学院、南京林业大学淮安校区3所本科院校，21所中高职院校，常年在校学生约18万人，每年毕业生5万多人。全市专业技术人才超50万人，具有高级工、技师或高级技师执业资格的高技能人才超20万人。

TAX SERVICE

税收服务

淮安市税务局与江苏韩泰轮胎有限公司举行了苏北首例单边预约定价安排(APA)签约仪式,为企业降低跨境交易税收成本,提升跨境运营综合竞争力。

The Tax Bureau of Huai'an City and Jiangsu Hankook Tire Co., Ltd. held the signing ceremony of the first unilateral Advance Pricing Arrangement (APA) in northern Jiangsu, which will help the enterprise reduce the tax cost of cross-border transactions and enhance the comprehensive competitiveness of cross-border operations. Please provide the text you would like translated.

淮安市税务局充分利用循环经济产业园的区位优势和行业集聚效应,用好、用足废旧物资“反向开票”等税收政策,2024年“反向开票”数量、金额全省第一。

The Tax Bureau of Huai'an City has fully leveraged the geographical advantages and industrial agglomeration effect of the Circular Economy Industrial Park, making the best use of tax policies such as "reverse invoicing" for waste materials. In 2024, the quantity and amount of "reverse invoicing" in Huai'an ranked first in the province.

CUSTOMS CLEARANCE

CONVENIENCE

通关便利

淮安海关大力推行“船边直提”“抵港直装”“内外贸同船运输”等通关便利措施,“一企一策”定制个性化物流方案,实行“5+2”预约查验,持续优化真空包装等高新技术货物、出口危包等查验模式,深入推进“远程属地查检”监管模式改革,全力帮助企业降本增效,打造一流口岸营商环境。

Huai'an Customs has been vigorously promoting convenient customs clearance measures such as "direct pick-up at the ship's side", "direct loading upon arrival", and "combined transportation of domestic and foreign trade on the same vessel", customizing personalized logistics solutions on a "one enterprise, one policy" basis, implementing "5+2" appointment-based inspection, continuously optimizing inspection models for high-tech goods in vacuum packaging and export dangerous goods packaging, and deeply advancing the reform of the "remote and local inspection and quarantine" supervision model. All these efforts are aimed at helping enterprises reduce costs and increase efficiency, and creating a first-class port business environment.
